PROFESSIONAL SUMMARY

Motivated Frontend Developer with a background in Computer Science and hands-on experience in website development and management using HTML, CSS, JavaScript, WordPress, and Elementor. Experienced in building and maintaining user-friendly websites, managing digital content, and troubleshooting website issues. During my NYSC service at BlockMaster Precast, I managed the company's WordPress website while also supporting digital documentation and site operations. Passionate about developing modern web solutions while continuously expanding my skills into React.js, backend development, and full-stack web development.

TECHNICAL SKILLS

Frontend Development: HTML5 • CSS3 • JavaScript • Responsive Web Design

Website & Development Tools: WordPress • Elementor • GitHub • Website Management

Additional Skills: Drone Operation • Aerial Photography & Videography • Video Editing • Canva • Social Media Management

SOFT SKILLS

Problem-Solving • Teamwork & Collaboration • Communication • Adaptability • Attention to Detail • Time Management • Creativity • Willingness to Learn

PROFESSIONAL EXPERIENCE

BlockMaster Precast — Ibadan, Oyo State, Nigeria

NYSC Corps Member | Website & Operations Support | Drone Operator | September 2025 – August 2026

- Managed and updated the company's WordPress website using Elementor, including product information, images, descriptions, and other website content.
- Operated drones to capture aerial photographs and videos for project documentation and company promotional purposes.
- Supported the production of precast concrete products, including wall panels and other precast components.
- Assisted with the installation of precast wall panels at project sites.
- Captured and organized project photos and videos for documentation and company communication.
- Supported daily site and production operations as required.

ACADEMIC PROJECT

Car Rental Website — Final Year Project

Ogun State Institute of Technology (OGITECH)

- Designed and developed a responsive car rental website from scratch using HTML, CSS, and JavaScript.
- Created user-friendly page layouts and interactive website elements.
- Applied responsive web design principles to improve usability across different screen sizes.
- Used GitHub to manage and showcase the project.

EDUCATION

Higher National Diploma (HND) in Computer Science

Ogun State Institute of Technology (OGITECH), Igbesa — 2024
